**data over audio**

When attendees walked near stages, they received news, schedule updates and lineup changes. Festival-goers were proactively notified of changes to the schedule for artists they wanted to see.

## USE CASES / PRESENCE & PROXIMITY

# IN STORE

### DISCOVER THE CUSTOMER JOURNEY

creating a heat map of of the customer journey through your retail environment(s)

### MAKE SMARTER DISPLAY DECISIONS

based on where and when customers are in your space

### PREEMPT THE SHOPPING EXPERIENCE

with notifications of noteworthy merchandise and purchase opportunities in the area

*\*Tones are playing throughout store, audio zones, and/or any device emitting audio*

Create data points around the customer journey to make sure your floor layout is inviting

USE CASES / PROXIMITY

## IN VENUE

### PERSONALIZE THE VENUE EXPERIENCE

delivering messaging and media depending on where individuals are in your venue

### MAKE THE VENUE EASY TO NAVIGATE

with reminders on where restrooms, concessions, and other event necessities are in the space

### DISCOVER THE FAN JOURNEY

creating a heatmap of consumer activity and presence around the stadium or arenas

*\*Different tones are playing through different areas in venue*
